Ultrasonic Pest Repeller

- Utilizing variable-frequency ultrasonic waves to stimulate pests' auditory and nervous systems, inducing discomfort that drives them away.
- Effective against mosquitoes, mice, fleas, flies, bed bugs, cockroaches, spiders, centipedes, ants, termites, ticks, mites, and other pests.
- Suitable for indoor use in homes, offices, schools, entertainment venues, hotels, hospitals, warehouses, RVs, and similar locations.

LQ1001

Ultrasonic Intelligent Inverter Mosquito Repeller

Product Features

- 1. Energy-efficient and low consumption: Total power consumption is 3W. With 24-hour operation, it uses only 26 kWh of electricity annually.
- 2. Safe and eco-friendly: Utilizes ultrasonic insect repellent technology without chemicals, posing no harm to humans.
- 3. Suitable for mothers and infants: Physical insect repellent method—odorless, tasteless, and non-toxic, making it a mother-and-baby-friendly product.
- 4. Silent Operation: Virtually no sound during operation.
- 5. Suitable Locations: Ideal for homes, offices, schools, entertainment venues, hotels, hospitals, warehouses, RVs, and other indoor spaces.
- 6. Target Pests: Mosquitoes, cockroaches, mice, flies, fleas, bed bugs.

Product Parameter	
Weight	48g
Power	3W
Material	ABS
Color	White
Package Dimensions	98*56*66mm
Operating Voltage	110-240VAC
Frequency Range	50-60kHz
Effective Coverage	100 m²
Product Specifications	US 、 UK、 EU、 AU

Operating Principle

The mosquito repellent device emits ultrasonic waves with intelligently fluctuating frequencies, stimulating the auditory and nervous systems of mosquitoes to induce discomfort and drive them away from your home. The varying ultrasonic frequencies prevent pests from adapting to any single frequency, ensuring they remain uncomfortable and continue fleeing your home.

LQ1002

Dual Speaker Ultrasonic Intelligent Inverter Mosquito Repeller

Product Features

1. Energy-efficient and low consumption: Total power consumption is 5W. With 24-hour operation, it uses only 43 kWh of electricity annually.
2. Safe and eco-friendly: Utilizes dual-speaker ultrasonic technology for enhanced pest control. Chemical-free and harmless to humans.
3. Safe for mothers and infants: Physical pest repellent method—odorless, tasteless, and non-toxic. A mother-and-baby-friendly product.
4. Silent Operation: Virtually no sound emitted during use.
5. Versatile Application: Suitable for indoor spaces including homes, offices, schools, entertainment venues, hotels, hospitals, warehouses, RVs, etc.
6. Target Pests: Mosquitoes, cockroaches, mice, flies, fleas, bed bugs.

Product Parameter	
Weight	75g
Power	4-5W
Material	ABS
Color	White
Package Dimensions	98*56*66mm
Operating Voltage	90-250VAC
Frequency Range	50-60kHz
Effective Coverage	300 m ²
Product Specifications	US 、 UK、 EU、 AU

Operating Principle

Enhanced Mosquito Repellent Device Utilizing dual ultrasonic speakers, this repellent continuously emits ultrasonic waves with intelligently fluctuating frequencies. This stimulates the auditory and nervous systems of mosquitoes, inducing discomfort that drives them away from your home. The varying ultrasonic frequencies prevent pests from adapting to any single frequency, ensuring they remain persistently uncomfortable and ultimately flee your living space.

LQ1003

AI Intelligent Dual Frequency Sonic Insect Repeller

Product Features

1. Energy-efficient and low consumption: Total power consumption is 3W. Operating 24 hours a day, it uses only 26 kWh of electricity annually.
2. Safe and eco-friendly: Utilizes electromagnetic waves and ultrasonic waves to repel pests, without using chemicals, posing no harm to humans.
3. Suitable for mothers and infants: Physical pest repellent method, odorless, tasteless, and non-toxic, making it a mother-and-baby-friendly product.
4. Silent and low-noise: Operates with virtually no sound.
5. Suitable Locations: Ideal for homes, offices, schools, entertainment venues, hotels, hospitals, warehouses, RVs, and other indoor spaces.
6. Target Pests: Effective against mosquitoes, mice, fleas, flies, bed bugs, cockroaches, spiders, centipedes, ants, termites, ticks, mites, and other pests.

Product Parameter	
Weight	75g
Power	3W
Material	ABS
Color	White, Black
Package Dimensions	96*67*72mm
Operating Voltage	110-230VAC
Frequency Range	25-50kHz
Effective Coverage	130 m²
Product Specifications	US 、 UK、 EU、 AU

Operating Principle

The pest repeller employs intelligent dual-frequency physical pest control, alternately generating electromagnetic waves and ultrasonic waves while continuously shifting frequencies. This provides sustained, powerful stimulation to pests, preventing them from adapting to a single sound wave while swiftly driving them away from your home to create a comfortable living environment.

LQ1004

New ultrasonic intelligent frequency conversion mosquito repeller

Product Features

1. Energy-efficient and low consumption: Total power consumption is 3W. With 24-hour operation, it uses only 26 kWh of electricity annually.
2. Safe and eco-friendly: Utilizes ultrasonic insect repellent technology without chemicals, posing no harm to humans.
3. Suitable for mothers and infants: Physical insect repellent method—odorless, tasteless, and non-toxic, making it a mother-and-baby-friendly product.
4. Silent Operation: Virtually no sound emitted during use.
5. Suitable Locations: Ideal for homes, offices, schools, entertainment venues, hotels, hospitals, warehouses, RVs, and other indoor spaces.
6. Target Pests: Mosquitoes, rodents, spiders, centipedes, flies, cockroaches, ants.

Product Parameter	
Weight	67g
Power	3W
Material	ABS
Color	White
Package Dimensions	102*60*70mm
Operating Voltage	110-240VAC
Frequency Range	25-45kHz
Effective Coverage	100 m²
Product Specifications	US 、 UK、 EU、 AU

Operating Principle

Utilizing cutting-edge chip technology, it rapidly alternates between different ultrasonic frequencies to stimulate mosquitoes' auditory and nervous systems, inducing discomfort that drives them away from your home. The varied ultrasonic frequencies (25-45kHz) and rapidly shifting patterns prevent pests from adapting to any single frequency, ensuring efficient and swift mosquito elimination.

LQ1005

Ultrasonic Electronic Mosquito Repeller

Product Features

1. Energy-efficient and low consumption: Total power consumption is 4W. Operating 24 hours a day, it uses only 35 kWh of electricity annually.
2. Safe and eco-friendly: Utilizes ultrasonic waves, electromagnetic waves, and biomimetic waves for pest control without chemicals, posing no harm to humans.
3. Safe for mothers and infants: Physical pest control method—odorless, tasteless, and non-toxic. A mother-and-baby-friendly product.
4. Silent Operation: Virtually no sound emitted during use.
5. Suitable Locations: Ideal for homes, offices, schools, entertainment venues, hotels, hospitals, warehouses, RVs, and other indoor spaces.
6. Target Pests: Mosquitoes, cockroaches, mice, flies, fleas, bed bugs.

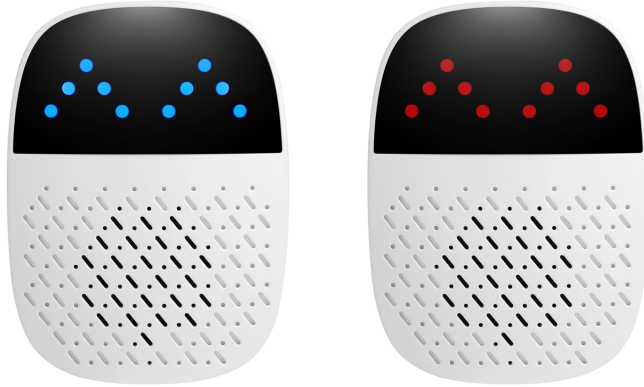

Product Parameter	
Weight	60g
Power	4W
Material	ABS
Color	White
Package Dimensions	96*68*30mm
Operating Voltage	110-240VAC
Frequency Range	25-45kHz
Effective Coverage	60-100 m ²
Product Specifications	US 、 UK、 EU、 AU

Operating Principle

The mosquito repellent alternately emits ultrasonic waves, electromagnetic waves, and biomimetic waves to stimulate the insects' nervous systems, driving them away from your home. The alternating use of different sound waves ensures pests never adapt to any single pulse and will not linger in your home.

LQ1006

AI Intelligent Sonic Pulse Resonance Rodent Repeller

Product Features

1. Energy-efficient and low consumption: Total power consumption is 5W. With 24-hour operation, it uses only 43 kWh of electricity annually.
2. Safe and eco-friendly: Utilizes ultrasonic pulse resonance technology to repel insects without chemicals, posing no harm to humans.
3. Safe for mothers and infants: Physical insect repellent method—odorless, tasteless, and non-toxic. A mother-and-baby-friendly product.
4. Silent Operation: Virtually no sound emitted during use.
5. Versatile Applications: Suitable for homes, offices, schools, entertainment venues, hotels, hospitals, warehouses, RVs, and other indoor spaces.
6. Smart Silent Mode: Repels various pests including mosquitoes, fleas, flies, bed bugs, cockroaches, spiders, centipedes, ants, termites, ticks, mites, and other pests.
7. Powerful Repellent Mode: Rapidly drives away rodents by inducing intense discomfort, causing them to flee.

Product Parameter	
Weight	75g
Power	3-5W
Material	ABS
Color	White、 Black
Package Dimensions	96*67*72mm
Operating Voltage	85-275VAC
Frequency Range	50-60kHz
Effective Coverage	1000 m ²
Product Specifications	US 、 UK、 EU、 AU

Operating Principle

This product utilizes AI-driven variable-frequency acoustic pulse resonance technology. Its AI chip generates randomly varying high-speed, ultra-high-frequency pulse waves and performs AI calculations based on ambient sounds before initiating scans. The resulting pulse signals resonate with the acoustic frequencies of rodents like mice, creating overlapping acoustic interference to ultimately achieve rodent repellency.

LQ1007

Ultrasonic Mosquito Repellent

Product Features

1. Energy-efficient and low consumption: Total power consumption is 2.5W. With 24-hour operation, it uses only 22 kWh of electricity annually.
2. Safe and eco-friendly: Utilizes ultrasonic insect repellent technology without chemicals, posing no harm to humans.
3. Suitable for mothers and infants: Physical insect repellent method—odorless, tasteless, and non-toxic, making it a mother-and-baby-friendly product.
4. Silent Operation: Virtually no sound emitted during use.
5. Suitable Locations: Ideal for homes, offices, schools, entertainment venues, hotels, hospitals, warehouses, RVs, and other indoor spaces.
6. Target Pests: Mosquitoes, cockroaches, mice, flies, fleas, bed bugs.

Product Parameter	
Weight	61g
Power	2.5W
Material	ABS
Color	White
Package Dimensions	178*126*65mm
Operating Voltage	85-275VAC
Frequency Range	20-65kHz
Effective Coverage	120 m²
Product Specifications	US 、 UK、 EU

Operating Principle

The ultrasonic waves emitted by the mosquito repellent device continuously bounce off walls, startlinging pests like mosquitoes or rodents hiding in pipes or crevices into fleeing. The frequency of these ultrasonic waves automatically fluctuates intermittently, preventing pests from developing “adaptability” or “immunity” to any fixed frequency.

LQ1008

Portable Ultrasonic Mosquito Repellent

Product Features

1. Portable: Compact size with a built-in hook for easy carrying.
2. Safe and Eco-Friendly: Uses ultrasonic technology to repel insects without chemicals, harmless to humans.
3. Safe for Mothers and Babies: Physical repellent method—odorless, tasteless, and non-toxic, ideal for mothers and infants.
4. Silent Operation: Emits virtually no sound during use.
5. Long-lasting Battery: USB rechargeable for extended outdoor use.
5. Ideal for: Picnics, camping, walks, hiking.
6. Effective Against: Mosquitoes.

Product Parameter	
Weight	40g
Power	0.5W
Material	ABS
Color	White
Package Dimensions	71*71*24mm
Operating Voltage	DC 3V
Frequency Range	9-36kHz
Effective Coverage	3 m ²
Product Specifications	USB

Operating Principle

The portable ultrasonic mosquito repellent emits continuously varying ultrasonic frequencies, creating an ultrasonic protective barrier around the user to deter mosquitoes and ensure safety.

To turn on: Press and hold the power button for 3 seconds. The red light will flash, and the repellent will activate.

To turn off: Press and hold the power button for 5 seconds. The red light will flash, and the repellent will deactivate.

LQ1009

Ultrasonic Pest Repeller

Product Features

1. Energy-efficient and low consumption: Total power consumption is 4W. Operating 24 hours a day, it uses only 35 kWh of electricity annually.
2. Safe and eco-friendly: Utilizes ultrasonic pest repellent technology without chemicals, posing no harm to humans.
3. Safe for mothers and infants: Physical pest control method—odorless, tasteless, and non-toxic, making it a mother-and-baby-friendly product.
4. Silent and low-noise: Operates with virtually no sound.
5. Suitable Locations: Ideal for homes, offices, schools, entertainment venues, hotels, hospitals, warehouses, RVs, and other indoor spaces.
6. Target Pests: Effective against mosquitoes, mice, fleas, flies, bed bugs, cockroaches, spiders, centipedes, ants, termites, ticks, mites, and other pests.

Product Parameter	
Weight	52g
Power	4W
Material	ABS
Color	White + Blue White + Green
Package Dimensions	102*67*65mm
Operating Voltage	100-240VAC
Frequency Range	9-36kHz
Effective Coverage	100m ²
Product Specifications	US

Operating Principle

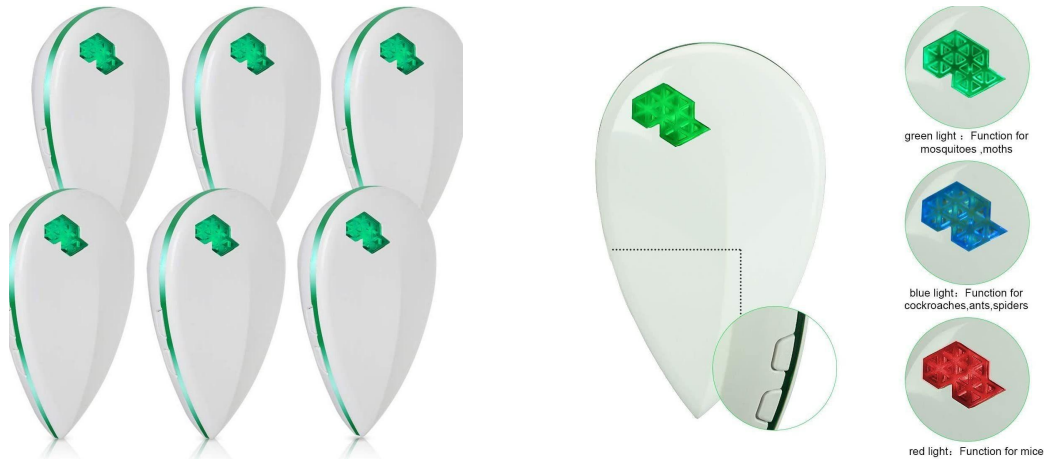

Mode 1: Press the button once. The red light illuminates, emitting ultrasonic waves at a frequency of 9-15kHz to repel mice.

Mode 2: Press the button twice. The yellow light illuminates, emitting ultrasonic waves at a frequency of 15-25kHz to repel cockroaches, ants, spiders, crickets, and bed bugs.

Mode 3: Press the button three times. The green light illuminates, emitting ultrasonic waves at a frequency of 25-36kHz to repel mosquitoes, silkworm moths, moths, and flies.

LQ1010

Ultrasonic Pest Repeller (LED Night Light)

Product Features

1. Energy-efficient and low consumption: Total power consumption is 4W. Operating 24 hours daily, it uses only 35 kWh of electricity annually.
2. Safe and eco-friendly: Utilizes variable-frequency ultrasonic technology to repel pests without chemicals, posing no harm to humans.
3. Safe for mothers and infants: Physical pest control method is odorless, tasteless, and non-toxic, making it a mother-and-baby-friendly product.
4. Silent and low-noise: Operates with virtually no audible sound.
5. Suitable Locations: Ideal for homes, offices, schools, entertainment venues, hotels, hospitals, warehouses, RVs, and other indoor spaces.
6. Target Pests: Mosquitoes, rodents, fleas, flies, bed bugs, cockroaches, spiders, centipedes, ants, termites, ticks, mites, and other pests.

Product Parameter	
Weight	52g
Power	4W
Material	ABS
Color	White + Green
Package Dimensions	95*63*63mm
Operating Voltage	100-240VAC
Frequency Range	9-36kHz
Effective Coverage	200m²
Product Specifications	US、 EU

Operating Principle

Mode 1: Press the switch button once. The green indicator light illuminates, emitting ultrasonic frequencies between 25kHz and 36kHz to repel mosquitoes and flies.

Mode 2: Press the switch button twice. The blue indicator light illuminates, emitting ultrasonic frequencies between 15kHz and 25kHz to repel cockroaches, ants, spiders, crickets, and bed bugs.

Mode 3: Press the switch button three times. The red indicator light illuminates, emitting ultrasonic frequencies between 9kHz and 15kHz to repel mice.

Mode 4: LED Night Light. Press the night light button to activate the night light. Press the button again to turn off the night light.

LQ1011

Multi-Function Ultrasonic Rodent Repeller and Mosquito Repeller

Product Features

1. Energy-efficient and low consumption: Total power consumption is 4W. With 24-hour operation, it uses only 35 kWh of electricity annually.
2. Safe and eco-friendly: Utilizes variable-frequency ultrasonic technology to repel insects without chemicals, posing no harm to humans.
3. Suitable for mothers and infants: Physical insect repellent method—odorless, tasteless, and non-toxic, making it a mother-and-baby-friendly product.
4. Silent Operation: Virtually no sound emitted during use.
5. Suitable Locations: Ideal for homes, offices, schools, entertainment venues, hotels, hospitals, warehouses, RVs, and other indoor spaces.
6. Target Pests: Mosquitoes, rodents, spiders, centipedes, flies, cockroaches, ants.

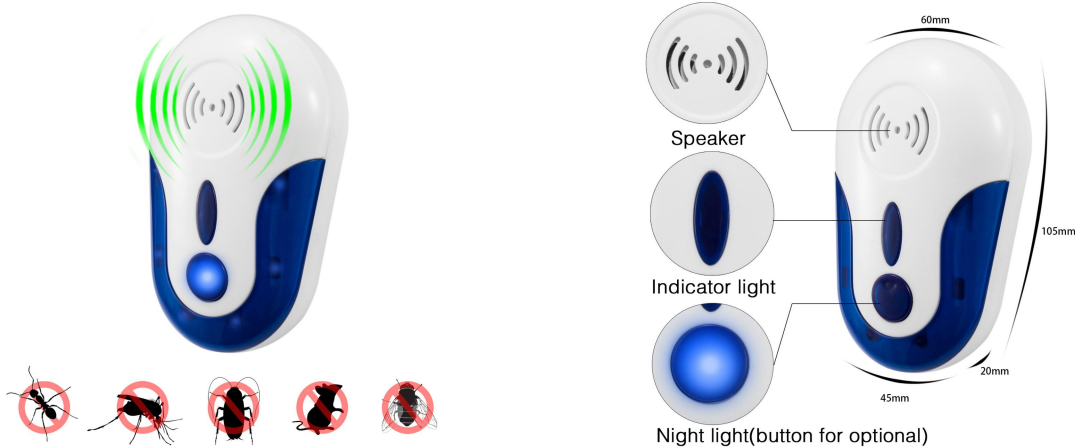

Product Parameter	
Weight	63g
Power	4W
Material	ABS
Color	White
Package Dimensions	100*63*63mm
Operating Voltage	100-240VAC
Frequency Range	20-65kHz
Effective Coverage	150 m²
Product Specifications	US 、 UK、 EU

Operating Principle

The multifunctional ultrasonic rodent and mosquito repeller rapidly alternates between different ultrasonic frequencies, stimulating the auditory and nervous systems of rodents and insects to induce discomfort and drive them away, keeping pests out of your home. The varied ultrasonic frequencies (20-65kHz) and rapidly shifting waveforms prevent pests from adapting to any single frequency, ensuring efficient and rapid elimination of insects.

LQ1012

Ultrasonic Pest Repeller

Product Features

1. Energy-efficient and low consumption: Total power consumption is 4W. Operating 24 hours daily, it uses only 35 kWh of electricity annually.
2. Safe and eco-friendly: Utilizes variable-frequency ultrasonic technology to repel pests without chemicals, posing no harm to humans.
3. Safe for mothers and infants: Physical pest control method is odorless, tasteless, and non-toxic, making it a mother-and-baby-friendly product.
4. Silent and low-noise: Operates with virtually no audible sound.
5. Suitable Locations: Ideal for homes, offices, schools, entertainment venues, hotels, hospitals, warehouses, RVs, and other indoor spaces.
6. Target Pests: Mosquitoes, rodents, fleas, flies, bed bugs, cockroaches, spiders, centipedes, ants, termites, ticks, mites, and other pests.

Product Parameter	
Weight	63g
Power	4W
Material	ABS
Color	White+Blue
Package Dimensions	100*63*63mm
Operating Voltage	100-240VAC
Frequency Range	20-65kHz
Effective Coverage	100 m ²
Product Specifications	US 、 UK、 EU

Operating Principle

Ultrasonic pest repellents should be installed 80-120 centimeters above the floor, positioned vertically. Avoid mounting near carpets, curtains, or other areas with sound-absorbing materials. During the initial period of use, rodent and pest activity may temporarily increase—this is a normal phenomenon.

After encountering ultrasonic waves, pests will retreat from their living areas. When they find no refuge, they will eventually leave your space.

LQ1013

Smart Variable-Frequency Ultrasonic Alarm Mouse Repeller

Product Features

1. 360-degree comprehensive rodent repellent coverage.
2. Four ultrasonic speakers with a 600-square-meter repellent range.
3. Programmable voice alarm function.
4. Constructed from ABS eco-friendly recyclable materials.
5. Suitable for: Warehouses, supermarkets, shopping malls, hotels, offices, restaurants, and homes.
6. Target pests: Rodents.

Product Parameter	
Weight	350g
Power	3W
Material	ABS
Color	Black + White
Package Dimensions	129*120*120mm
Operating Voltage	100-240VAC
Frequency Range	9-65kHz
Effective Coverage	600m ²
Product Specifications	US、UK 、EU

Operating Principle

Mode 1: Ultrasonic frequency 9kHz-23.5kHz, operates 24/7.

Mode 2: Ultrasonic frequency 23.5kHz-65kHz, operates 24/7.

Mode 3: Ultrasonic frequency 9kHz-65kHz, combined with powerful LED light to repel rodents (timed operation, cycles every 5/15/35/60 minutes, each cycle lasts 36 seconds).

Mode 4: Ultrasonic frequency range 9kHz-65kHz, combined with powerful LED light and alarm sound to repel rodents (timed operation, cycling every 5/15/35/60 minutes, each cycle lasting 36 seconds).

LQ1014

Ultrasonic Stroboscopic Light Rodent Repeller

Product Features

1. 360-degree comprehensive rodent repellent coverage.
2. Three ultrasonic speakers with a 600-square-meter repellent range.
3. Programmable voice alarm function.
4. Constructed from ABS eco-friendly recyclable materials.
5. Suitable for: Warehouses, supermarkets, shopping malls, hotels, offices, restaurants, and homes.
6. Target pests: Rodents.

Product Parameter	
Weight	35g
Power	1.5W
Material	ABS
Color	Black, White, Orange
Package Dimensions	65*65*75mm
Operating Voltage	100-240VAC
Frequency Range	22-35kHz
Effective Coverage	600m ²
Product Specifications	USB

Operating Principle

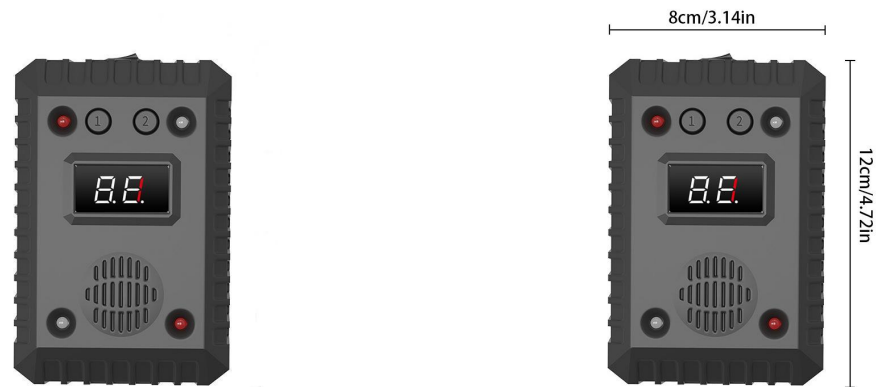

Mode 1: Ultrasonic frequency 24.5kHz-25.5kHz, operates 24/7.

Mode 2: Ultrasonic frequency 22kHz-35kHz, operates continuously.

Mode 3: Ultrasonic frequency 22kHz-35kHz, combined with powerful LED light and audible alarm to repel rodents (timed operation, cycles at 5/15/35/60-minute intervals, each cycle lasting 36 seconds).

LQ1015

Vehicle/Indoor Variable-Frequency Ultrasonic Rodent Repeller

Product Features

- 1. Auto Start/Stop: Automatically shuts off when the engine starts and turns on when the engine stops.
- 2. Extended Battery Life: Remains functional even after ten months of parking.
- 3. Smart Low-Voltage Protection: Ensures sufficient battery power for engine startup.
- 4. Automotive-Grade Materials: Withstands temperatures up to 230°C (446°F) and is flame-resistant for safety and reliability.
- 5. Suitable for: RVs, cars, garages, and homes.
- 6. Effective against: Mice, geckos, mosquitoes, fleas, flies, bed bugs, cockroaches, spiders, ants.

Product Parameter	
Weight	230g
Power	0.6W
Material	ABS
Color	Black
Package Dimensions	117*128*38mm
Operating Voltage	5V/12-24V
Frequency Range	9-65kHz
Effective Coverage	50-80m²
Product Specifications	Battery-free Battery-included

Operating Principle

Utilizing 8 LED strobe lights, alarm sounds, and variable-frequency ultrasonic waves in combination, this device creates a sense of danger for rodents while continuously stimulating their nervous systems, forcing them to stay away from your beloved vehicle.

Mode 1: Operates using ultrasonic waves and strobe lights.

Mode 2: Operates using alarm sounds, ultrasonic waves, and strobe lights.

LQ1016

Vehicle/Indoor Ultrasonic Rodent Repeller

Product Features

1. Auto Start/Stop: Automatically shuts off when the engine starts and turns on when the engine is turned off.
2. Extended Battery Life: Remains functional even after ten months of parking.
3. Smart Low-Voltage Protection: Ensures sufficient battery power for engine startup.
4. Automotive-Grade Materials: Withstands temperatures up to 230°C and is flame-resistant for safety and reliability.
5. Suitable for: RVs, cars, garages, and homes.
6. Applicable pests: Mice.

Product Parameter	
Weight	189g
Power	0.6W
Material	ABS
Color	Black、 Orange
Package Dimensions	123*35*83mm
Operating Voltage	5-12V
Frequency Range	9-65kHz
Effective Coverage	50-80m²
Product Specifications	Battery-free Battery-included

Operating Principle

Mode 1: Operates using fixed-frequency ultrasonic waves.

Mode 2: Operates using continuously varying ultrasonic frequencies.

Mode 3: Operates in a cycle using fixed-frequency ultrasonic waves, continuously varying ultrasonic frequencies, and LED flashes.

LQ1017

Vehicle/Indoor Ultrasonic Rodent Repeller

Product Features

1. Auto Start/Stop: Automatically shuts off when the engine starts and turns on when the engine stops.
2. Extended Battery Life: Remains functional even after ten months of parking.
3. Smart Low-Voltage Protection: Ensures sufficient battery power for engine startup.
4. Automotive-Grade Materials: Withstands temperatures up to 230°C (446°F) and is flame-resistant for safety and reliability.
5. Suitable for: RVs, cars, garages, and homes.
6. Effective against: Mice, geckos, mosquitoes, fleas, flies, bed bugs, cockroaches, spiders, ants.

Product Parameter	
Weight	239g
Power	0.6W
Material	ABS
Color	Black + White
Package Dimensions	123*35*83mm
Operating Voltage	5-12V
Frequency Range	9-65kHz
Effective Coverage	50-80m ²
Product Specifications	Battery-free Battery-included

Operating Principle

Mode 1: The device emits ultrasonic waves at frequencies between 26kHz and 65kHz, accompanied by flashing red and white LEDs, to repel mice.

Mode 2: The device emits ultrasonic waves at frequencies between 26kHz and 65kHz, alternating between a 1-second alarm sound and a 1-second beep, to repel mice.

Ultrasonic Animal Repeller

- Utilizes ultrasonic waves, strobe lights, and alarm sounds to repel animals by inducing fear, causing them to flee the area.
- Effective against birds, rabbits, mice, cats, dogs, foxes, wolves, deer, wild boars, raccoons, badgers, skunks, bats, minks, snakes, and rodents.
- Suitable for villas, gardens, courtyards, orchards, parks, lawns, rice fields, farms, and campsites.

LQ2001

Solar-Powered Ultrasonic Animal Repeller

Product Features

1. PIR infrared detection capability.
2. High conversion efficiency, rapid charging, and extended battery life.
3. Adjustable frequency and sensitivity.
4. Suitable locations: Villas, gardens, courtyards, orchards, parks, lawns, rice fields, farms.
5. Applicable range: Birds, rabbits, mice, cats, dogs, foxes, wolves, deer, wild boars, raccoons, badgers, skunks, bats, minks, snakes, rodents.

Operating Principle

Mode 1: Emits ultrasonic waves at 13.5 kHz–19.5 kHz to repel rodents, dogs, foxes, mink, and similar animals.

Mode 2: Emits ultrasonic waves between 19.5 kHz and 24.5 kHz to repel cats, raccoons, skunks, and similar animals.

Mode 3: Emits ultrasonic waves between 24.5 kHz and 45.5 kHz to repel bats, birds, rodents, and similar animals.

Mode 4: Emits powerful LED light to repel raccoons, wild boars, minks, and similar animals.

Mode 5: Combines variable-frequency ultrasonic waves with intense LED flashing to disperse all animals. Modes 1 through 4 cycle through every 2 seconds.

Product Parameter	
Weight	454g
Color	Green
Material	ABS
Package Dimensions	155*145*95mm
Charging Method	Solar + USB
Waterproof Rating	IP66
Effective Range	3-10m
Detection Range	110°
Rated Frequency	13.5-45.5kHz

LQ2002

Solar-Powered Seismic Wave Snake and Rodent Repeller

Product Parameter	
Weight	150g
Color	Black, Emerald Green, Orange, Light Green, Ginger Yellow, Blue
Material	ABS
Package Dimensions	248*75*47mm/2PCS
Charging Method	Solar
Waterproof Rating	IP66
Effective Range	150-200m ²
Detection Range	360°
Rated Frequency	25kHz

Product Features

- 1. IP66 waterproof and dustproof, highly durable.
- 2. No assembly required—simply unbox and use.
- 3. Solar-powered charging: just 4-5 hours of charging provides 3-4 days of operation.
- 4. Protects your yard, garden, orchard, and farm from snakes and rodents.

Operating Principle

Solar-powered snake and rodent repellents operate by mimicking seismic waves, stimulating the nervous systems of rodents and snakes to the point of intolerance, causing them to flee the area in panic.

LQ2003

Solar-Powered Ultrasonic Animal Repeller (Four Horns)

Product Parameter	
Weight	645g
Color	Green
Material	ABS+PC
Package Dimensions	160*130*110mm
Charging Method	Solar + USB
Waterproof Rating	IP55
Effective Range	3-10m
Detection Range	110°
Rated Frequency	13.5-28.5kHz

Product Features

1. Windproof, rainproof, and dustproof with robust chassis stability.
2. Easy assembly and operation, featuring four ultrasonic speakers.
3. High conversion efficiency, rapid charging, and extended battery life.
4. Suitable locations: Villas, gardens, courtyards, orchards, parks, lawns, rice fields, farms.
5. Applicable range: Birds, rabbits, mice, cats, dogs, foxes, wolves, deer, wild boars, raccoons, badgers, skunks, bats, minks, snakes, rodents.

Operating Principle

- Mode 1: Emits ultrasonic waves at 13.5 kHz–19.5 kHz to repel animals such as dogs, foxes, and baboons.
- Mode 2: Emits ultrasonic waves between 19.5kHz and 28.5kHz to repel cats, raccoons, skunks, and similar animals.
- Mode 3: Emits ultrasonic waves between 400kHz and 1000kHz to repel mice, snakes, and similar animals.
- Mode 4: Emits intense flashing LED light to repel raccoons, wild boars, cockroaches, and other animals.
- Mode 5: All functions operate simultaneously. Modes 1 through 4 activate sequentially, accompanied by intense LED flashing, ultrasonic waves, vibration, and sonic effects.

LQ2004

Solar-Powered Ultrasonic Animal Repeller

Product Parameter	
Weight	105g
Color	Green
Material	ABS
Package Dimensions	124*66*33mm
Charging Method	Solar + USB
Waterproof Rating	IP56
Effective Range	200-300m²
Detection Range	360°
Rated Frequency	20-36.5kHz

Product Features

1. The light sensor detects ambient light and automatically turns the insect repellent on or off.
2. Suitable for a variety of scenarios.
3. Easy to install and convenient to use.
4. Suitable locations: Homes, gardens, courtyards, orchards, parks, lawns, rice fields, farms, and camping sites.
5. Effective against: Dogs, wolves, deer, birds, mice, cockroaches, and ants.

Operating Principle

Indoor Mode: Emits ultrasonic waves at 20-36.5kHz to repel mice, cockroaches, ants, and other pests.

Outdoor Mode: Utilizes ultrasonic waves at 20-36.5kHz combined with LED lights to repel birds, dogs, wolves, deer, mice, and other animals through varying installation heights.

LQ2005

Solar-Powered Ultrasonic Animal Repeller

Product Parameter	
Weight	125g
Color	Black
Material	ABS
Package Dimensions	108*105*33mm
Charging Method	Solar + USB
Waterproof Rating	IP56
Effective Range	200-300m²
Detection Range	360°
Rated Frequency	9-65kHz

Product Features

1. Compact monster exterior design.
2. Multi-frequency conversion cross-operation principle.
3. Extended service life with wide coverage area.
4. Suitable locations: Villas, gardens, courtyards, orchards, parks, lawns, rice fields, farms, camping sites.
5. Applicable range: birds, mice, rabbits, cats, dogs, foxes, wolves, deer, wild boars, raccoons, badgers, skunks, bats, minks, snakes, rodents.

Operating Principle

Mode 1: Emits ultrasonic frequencies between 20-36kHz to repel dogs, cats, foxes, deer, and other wildlife.

Mode 2: Emits ultrasonic frequencies between 9-65kHz combined with flashing LED lights to repel rats, dogs, cats, raccoons, badgers, skunks, wild boars, and other wildlife. Automatically activates at night.

LQ2006

Solar-Powered Ultrasonic Animal Repeller

Product Parameter	
Weight	692g
Color	Green
Material	ABS + PC
Package Dimensions	175*130*115mm
Charging Method	Solar + USB
Waterproof Rating	IP66
Effective Range	3-10m
Detection Range	110°
Rated Frequency	13.5-28.5kHz

Product Features

- 1. PIR infrared detection function.
- 2. Shockproof, waterproof, and dustproof design.
- 3. Adjustable volume based on actual conditions.
- 4. Suitable for: gardens, courtyards, orchards, parks, lawns, rice fields, farms, and camping.
- 5. Applicable range: birds, mice, rabbits, cats, dogs, foxes, wolves, deer, wild boars, raccoons, badgers, skunks, bats, minks, snakes, rodents.

Operating Principle

- Mode 1: Ultrasonic frequency of 13.5-16.0kHz, effective for repelling cats and foxes.
- Mode 2: Ultrasonic frequency of 16.0-18.5kHz, effective for repelling raccoons and badgers.
- Mode 3: Ultrasonic frequency of 18.5-21.0 kHz, effective for repelling skunks and mice.
- Mode 4: Ultrasonic frequency of 21.0-23.5 kHz, effective for repelling dogs and ferrets.
- Mode 5: Ultrasonic frequency 23.5-26.0kHz, repels birds and bats.
- Mode 6: Ultrasonic frequency 26.0-28.5kHz, repels snakes and mice.
- Mode 7: Ultrasonic frequency 13.5-28.5kHz, repels deer, wild boars, weasels, and other wildlife.

LQ2007

Solar-Powered Ultrasonic Animal Repeller

Product Features

1. PIR infrared detection function.
2. 12 LED red and white flashing lights.
3. Responsive and stable operation.
4. Suitable for: gardens, courtyards, orchards, parks, lawns, rice fields, farms, camping.
5. Applicable range: birds, mice, rabbits, cats, dogs, foxes, wolves, deer, wild boars, raccoons, badgers, skunks, bats, minks, snakes, rodents.

Operating Principle

Mode 1: Ultrasonic frequency range of 13.5KHZ-23.5KHZ, repels rodents, dogs, foxes, ferrets, and similar animals.

Mode 2: Ultrasonic frequency range of 23.5KHZ-65KHZ, repels cats, foxes, badgers, skunks, and similar animals.

Mode 3: Voice alarm operation, simulating sounds that frighten animals to repel them, such as birds, cats, dogs, etc.

Mode 4: Powerful LED light, capable of repelling raccoons, birds, wild boars, woodpeckers, etc.

Mode 5: Cyclic operation from Mode 1 to Mode 4, using variable ultrasonic frequencies and powerful LED light to repel all animals.

Product Parameter	
Weight	350g
Color	Green
Material	ABS
Package Dimensions	175*85*85mm
Charging Method	Solar + USB
Waterproof Rating	IP54
Effective Range	3-10m
Detection Range	110°
Rated Frequency	13.5-65kHz

LQ2008

360° Solar-Powered Ultrasonic Animal Repeller

Product Parameter	
Weight	420g
Color	Green
Material	ABS +PC
Package Dimensions	107*107*155mm
Charging Method	Solar + USB
Waterproof Rating	IP66
Effective Range	3-10m
Detection Range	360°
Rated Frequency	13.5-65kHz

Product Features

1. PIR infrared detection function.
2. Ultrasonic frequency continuously auto-adjusts.
3. 360° all-around coverage repels animals without blind spots, automatically adjusting detection range.
4. Suitable for: villas, gardens, courtyards, orchards, parks, lawns, rice fields, farms, camping.
5. Applicable range: birds, mice, rabbits, cats, dogs, foxes, wolves, deer, wild boars, raccoons, badgers, skunks, bats, minks, snakes, rodents.

Operating Principle

Mode 1: Emits ultrasonic waves between 13.5kHz and 65kHz to repel animals such as birds, mice, dogs, foxes, ferrets, cats, raccoons, badgers, and skunks.

Mode 2: Operates as an audible alarm, simulating sounds that frighten animals to repel them, such as birds, cats, and dogs.

Mode 3: Intense LED flashing to repel raccoons, birds, wild boars, crickets, and similar creatures.

Mode 4: Cyclic operation from Mode 1 to Mode 3, employing variable-frequency ultrasonic waves and LED light to repel all animals.

LQ2009

Solar-Powered Ultrasonic Snake and Rodent Repeller

Product Parameter	
Weight	470g
Color	Orange
Material	ABS
Package Dimensions	130*50*31mm/4PCS
Charging Method	Solar
Waterproof Rating	IP66
Effective Range	200-300m²
Detection Range	360°
Rated Frequency	30-45kHz

Product Features

- 1. Dual solar panel charging.
- 2. Emits six types of ultrasonic pulses to repel snakes and rodents.
- 3. Smart sensor-activated LED night light.
- 4. Suitable locations: Gardens, courtyards, orchards, parks, lawns, rice fields, farms, and campsites.
- 5. Effective against: Voles, moles, snakes, and other subterranean pests.

Operating Principle

- 1. Turn on the switch to activate the product.
- 2. Smart operation mode initiates with 6 distinct ultrasonic pulse patterns. The device randomly emits these pulses to prevent snakes and rodents from adapting to a single pattern. (For example: On for 2 seconds, off for 10 seconds; then on for 3 seconds, off for 20 seconds; followed by on for 4 seconds, off for 60 seconds. Patterns change randomly, not sequentially.)
- 3. Built-in LED light automatically activates via light source detection.

LQ2010

Solar-Powered Ultrasonic Animal Repeller

Product Parameter	
Weight	318g
Color	Green
Material	ABS
Package Dimensions	110*100*85mm
Charging Method	Solar + USB
Waterproof Rating	IP54
Effective Range	3-10m
Detection Range	110°
Rated Frequency	13.5-28.5kHz

Product Features

1. PIR infrared detection capability.
2. Shockproof, waterproof, and dustproof design.
3. Easy installation and operation.
4. Suitable locations: Gardens, courtyards, orchards, parks, lawns, rice fields, farms, camping sites.
5. Applicable range: birds, mice, rabbits, cats, dogs, foxes, wolves, deer, wild boars, raccoons, badgers, skunks, bats, minks, snakes, rodents.

Operating Principle

Mode 1: Ultrasonic frequency of 13.5KHZ-19.5KHZ, repels animals such as mice, dogs, foxes, and minks.

Mode 2: Ultrasonic frequency of 19.5KHZ-28.5KHZ, repels animals such as cats, raccoons, badgers, and skunks.

Mode 3: Audible alarm operation, simulating sounds that frighten animals to repel them, such as birds, cats, dogs, etc.

Mode 4: Intense LED flashing, capable of repelling animals like raccoons, birds, and wild boars.

Mode 5: Cyclic operation from Mode 1 to Mode 4, using varying ultrasonic frequencies and powerful LED lights to repel all animals.

LQ2011

Solar-Powered Ultrasonic Animal Repeller

Product Parameter	
Weight	285g
Color	Green
Material	ABS + PC
Package Dimensions	125*100*85mm
Charging Method	Solar + USB
Waterproof Rating	IP55
Effective Range	3-10m
Detection Range	110°
Rated Frequency	13.5-28.5kHz

Product Features

1. PIR infrared detection function.
2. 12 LED red and white flashing lights.
3. Wide applicability and easy installation.
4. Suitable locations: gardens, courtyards, orchards, parks, lawns, rice fields, farms, camping sites.
5. Applicable range: birds, mice, rabbits, cats, dogs, foxes, wolves, deer, wild boars, raccoons, badgers, skunks, bats, minks, snakes, rodents.

Operating Principle

Mode 1: Ultrasonic frequency of 13.5KHZ-19.5KHZ, repels rodents, dogs, foxes, minks, and similar animals.

Mode 2: Ultrasonic frequency of 19.5KHZ-28.5KHZ, repels cats, raccoons, badgers, skunks, and similar animals.

Mode 3: Voice alarm operation, simulating sounds that frighten animals to repel them, such as birds, cats, dogs, etc.

Mode 4: High-intensity LED light, repels cats, weasels, birds, wild boars, crickets, etc.

Mode 5: Cyclic operation of Modes 1 through 4, using alternating ultrasonic frequencies and high-intensity LED light to repel all animals.

LQ2012

Solar-Powered Ultrasonic Animal Repeller

Flame lamp animal repeller

Product Features

1. PIR infrared detection capability.
2. IP66 waterproof and dustproof, highly durable.
3. Supports USB power charging and solar power supply.
4. Suitable locations: Gardens, courtyards, orchards, parks, lawns, rice fields, farms, camping sites.
5. Applicable range: Animals including birds, rabbits, mice, cats, dogs, foxes, deer, raccoons, and wild boars.

Product Parameter

Weight	288g
Color	Green
Material	ABS
Package Dimensions	171*686*96mm
Charging Method	Solar + USB
Waterproof Rating	IP66
Effective Range	3-10m
Detection Range	110°
Rated Frequency	22-30kHz

Operating Principle

Mode 1: Operates using ultrasonic waves at 22kHz-30kHz.

Mode 2: Alternates between ultrasonic waves at 22kHz-30kHz, LED lighting, and flame lighting.

Mode 3: Operates simultaneously with strobe lighting and flame lighting.

LQ2013

Solar-Powered Ultrasonic Animal Repeller

Product Parameter	
Weight	370g
Color	Green
Material	ABS + PC
Package Dimensions	125*110*85mm
Charging Method	Solar + USB
Waterproof Rating	IP54
Effective Range	3-10m
Detection Range	110°
Rated Frequency	13.5-28.5kHz

Product Features

1. Enhanced PIR infrared detection capability.
2. Super-bright red and white LED strobe.
3. High-power, high-pitched speaker.
4. Suitable for: Gardens, courtyards, orchards, parks, lawns, rice fields, farms, camping.
5. Applicable range: birds, mice, rabbits, cats, dogs, foxes, wolves, deer, wild boars, raccoons, badgers, skunks, bats, minks, snakes, rodents.

Operating Principle

Mode 1: Ultrasonic frequency of 13.5KHZ-19.5KHZ, repels rodents, dogs, foxes, ferrets, and similar animals.

Mode 2: Ultrasonic frequency of 19.5KHZ-28.5KHZ, repels cats, raccoons, badgers, skunks, and similar animals.

Mode 3: Voice alarm operation, simulating sounds that frighten animals to repel them, such as birds, cats, dogs, etc.

Mode 4: Powerful LED flashing, repels raccoons, birds, wild boars, crickets, etc.

Mode 5: Cycles through Modes 1 to 4, using variable ultrasonic frequencies and LED flashes to repel all animals.

LQ2014

360° Solar-Powered Ultrasonic Animal Repeller

Product Features

1. PIR infrared detection function.
2. Ultrasonic frequency continuously auto-adjusts.
3. 360° all-around coverage repels animals without blind spots, automatically adjusting detection range.
4. Suitable for: villas, gardens, courtyards, orchards, parks, lawns, rice fields, farms, camping.
5. Applicable range: Birds, rodents, rabbits, cats, dogs, foxes, wolves, deer, wild boars, raccoons, badgers, skunks, bats, minks, snakes, rodents.

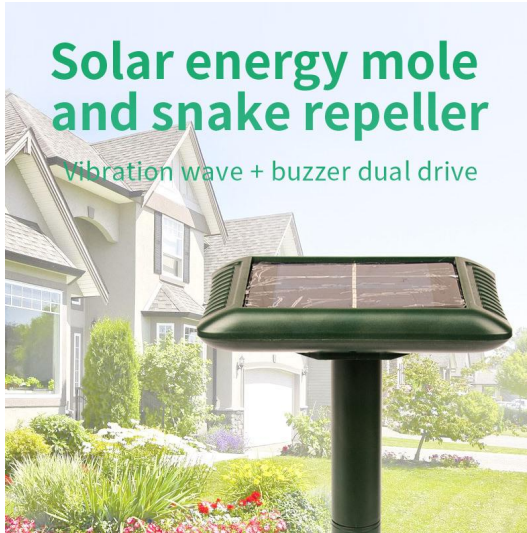

Operating Principle

- Mode 1: Emits ultrasonic waves at 13.5KHZ-22.5KHZ to repel animals such as cats, foxes, and deer.
- Mode 2: Emits ultrasonic waves at 23.5KHZ-65.5KHZ to repel animals such as rats, skunks, and minks.
- Mode 3: Emits an alarm sound to repel animals such as birds, dogs, and wild boars.
- Mode 4: Emits intense flashing LED light to repel animals such as wolves, dogs, and badgers.
- Mode 5: Cycles through Modes 1 to 4, using ultrasonic waves, alarm sounds, and LED light to repel all animals.

Product Parameter	
Weight	437g
Color	Green, Yellow
Material	ABS
Package Dimensions	113*115*139mm
Charging Method	Solar + USB
Waterproof Rating	IP55
Effective Range	3-10m
Detection Range	360°
Rated Frequency	13.5-65.5kHz

LQ2015

Solar-Powered Snake and Rodent Repeller

Product Features

1. Waterproof tempered glass cover.
2. User-friendly and easy to install.
3. Physically repels rodents and snakes.
4. Suitable locations: Gardens, courtyards, orchards, parks, lawns, rice fields, farms, camping sites.
5. Effective against: Snakes and rodents.

Product Parameter

Weight	362g
Color	Green
Material	ABS+PC
Package Dimensions	155*105*75mm
Charging Method	Solar + USB
Waterproof Rating	IP56
Effective Range	150-200m ²
Detection Range	360°
Rated Frequency	50-65kHz

Operating Principle

By generating periodic vibrations and sound waves, it repels moles, rats, rodents, and snakes. Operating continuously for 4-8 seconds within cycles of 5, 15, 25, 35, or 50 seconds, it stimulates these animals while simulating a dangerous situation, compelling them to stay away from the affected area.

LQ2016

Solar-Powered Ultrasonic Animal Repeller

Product Parameter	
Weight	398g
Color	Green
Material	ABS
Package Dimensions	152*113*72mm
Charging Method	Solar + USB
Waterproof Rating	IP66
Effective Range	3-10m
Detection Range	110°
Rated Frequency	13-60kHz

Product Features

1. PIR infrared detection function.
2. Waterproof, rainproof, and dustproof.
3. Multiple modes and sensitivity adjustments.
4. Suitable locations: Villas, gardens, courtyards, orchards, parks, lawns, rice fields, farms, camping sites.
5. Applicable range: Birds, mice, rabbits, cats, dogs, foxes, wolves, deer, wild boars, raccoons, badgers, skunks, bats, minks, snakes, rodents.

Operating Principle

Gear Adjustment: When adjusting gears, a beep will sound. Mode 1 emits one beep, Mode 2 emits two beeps, Mode 3 emits three beeps, and Mode 4 emits four beeps.

Mode 1: Ultrasonic frequency of 20KHZ-25KHZ, repels dogs, cats, foxes, deer, and other wildlife.

Mode 2: Ultrasonic frequency of 13kHz-60kHz repels rats, dogs, cats, raccoons, skunks, wild boars, and other wildlife.

Mode 3: LED strobe + voice alarm repels hunting dogs, birds, wild boars, and other wildlife.

Mode 4: Cycles through Modes 1 to 3 to repel all wildlife.

LQ2017

Solar-Powered Ultrasonic Animal Repeller

Product Parameter	
Weight	442g
Color	Green
Material	ABS
Package Dimensions	152*127*72mm
Charging Method	Solar + USB
Waterproof Rating	IP66
Effective Range	3-10m
Detection Range	110°
Rated Frequency	13-60kHz

Product Features

- 1. PIR infrared detection function.
- 2. Waterproof, rainproof, and dustproof.
- 3. Multiple modes and sensitivity adjustments.
- 4. Suitable locations: Villas, gardens, courtyards, orchards, parks, lawns, rice fields, farms, camping sites.
- 5. Applicable range: Birds, mice, rabbits, cats, dogs, foxes, wolves, deer, wild boars, raccoons, badgers, skunks, bats, minks, snakes, rodents.

Operating Principle

Gear Adjustment: When adjusting gears, a beep will sound. Mode 1 emits one beep, Mode 2 emits two beeps, Mode 3 emits three beeps, and Mode 4 emits four beeps.

Mode 1: Ultrasonic frequency of 20KHZ-25KHZ, repels dogs, cats, foxes, deer, and other wildlife.

Mode 2: Ultrasonic frequency of 13kHz-60kHz repels rats, dogs, cats, raccoons, skunks, wild boars, and other wildlife.

Mode 3: LED strobe + voice alarm repels hunting dogs, birds, wild boars, and other wildlife.

Mode 4: Cycles through Modes 1 to 3 to repel all wildlife.

LQ2018

Solar-Powered Ultrasonic Animal Repeller

Product Features

1. PIR infrared detection capability.
2. Easy assembly and operation.
3. High conversion efficiency, rapid charging, and extended battery life.
4. Suitable locations: Villas, gardens, courtyards, orchards, parks, lawns, rice fields, farms, camping sites.
5. Applicable targets: Birds, rodents, rabbits, cats, dogs, foxes, wolves, deer, wild boars, raccoons, badgers, skunks, bats, minks, snakes, rodents.

Operating Principle

Gear Adjustment: When adjusting gears, a clicking sound will be emitted. Mode 1 produces one click, Mode 2 produces two clicks, Mode 3 produces three clicks, and Gear 4 produces four clicks.

Mode 1: Ultrasonic frequency of 20KHZ-25KHZ, repels dogs, cats, foxes, deer, and other wildlife.

Mode 2: Ultrasonic frequency of 13kHz-60kHz repels rats, dogs, cats, raccoons, skunks, wild boars, and other wildlife.

Mode 3: LED strobe + voice alarm repels hunting dogs, birds, wild boars, and other wildlife.

Mode 4: Cycles through Modes 1 to 3 to repel all wildlife.

Product Parameter

Weight	380g
Color	Green
Material	ABS
Package Dimensions	152*113*72mm
Charging Method	Solar + USB
Waterproof Rating	IP66
Effective Range	3-10m
Detection Range	110°
Rated Frequency	13-60kHz

LQ2019

Solar-Powered Ultrasonic Animal Repeller

Product Parameter	
Weight	436g
Color	Green
Material	ABS
Package Dimensions	152*127*72mm
Charging Method	Solar + USB
Waterproof Rating	IP66
Effective Range	3-10m
Detection Range	110°
Rated Frequency	13-60kHz

Product Features

1. PIR infrared detection capability.
2. Easy assembly and operation.
3. High conversion efficiency, rapid charging, and extended battery life.
4. Suitable locations: Villas, gardens, courtyards, orchards, parks, lawns, rice fields, farms, camping sites.
5. Applicable targets: Birds, rodents, rabbits, cats, dogs, foxes, wolves, deer, wild boars, raccoons, badgers, skunks, bats, minks, snakes, rodents.

Operating Principle

Gear Adjustment: When adjusting gears, a clicking sound will be emitted. Mode 1 produces one click, Mode 2 produces two clicks, Mode 3 produces three clicks, and Gear 4 produces four clicks.

Mode 1: Ultrasonic frequency of 20KHZ-25KHZ, repels dogs, cats, foxes, deer, and other wildlife.

Mode 2: Ultrasonic frequency 13kHz-60kHz, repels rats, dogs, cats, raccoons, skunks, wild boars, and other wildlife.

Mode 3: LED strobe + voice alarm repels hunting dogs, birds, wild boars, and other wildlife.

Mode 4: Cycles through Modes 1 to 3 to repel all wildlife.

LQ2020

Solar-Powered Ultrasonic Animal Repeller

Product Parameter	
Weight	340g
Color	Green
Material	ABS
Package Dimensions	156*95*95mm
Charging Method	Solar + USB
Waterproof Rating	IP66
Effective Range	3-10m
Detection Range	110°
Rated Frequency	9-65kHz

Product Features

1. PIR infrared sensor automatically detects movement.
2. Highly responsive, quickly identifies animals.
3. Intelligent variable-frequency ultrasonic waves repel wildlife.
4. Suitable for: villas, gardens, courtyards, orchards, parks, lawns, rice fields, farms, camping.
5. Applicable range: birds, mice, rabbits, cats, dogs, foxes, wolves, deer, wild boars, raccoons, badgers, skunks, bats, minks, snakes, rodents.

Operating Principle

Mode 1: Power switch.

Mode 2: Triggered by PIR, emits ultrasonic waves at 22kHz-65kHz. The ultrasonic frequency continuously cycles during operation for 30 seconds. If the PIR detects a living animal again after 30 seconds, the device remains activated until the animal leaves.

Mode 3: PIR-triggered operation emitting ultrasonic waves at 9kHz-23kHz, continuously cycling frequencies for 30 seconds. LED breathing light and strobe light alternate operation (automatically activates at night). If the PIR detects living animals again after 30 seconds, the device will activate until the living animals leave.

LQ2021

Solar-Powered Ultrasonic Animal Repeller

Product Parameter	
Weight	99g
Color	Green
Material	ABS
Package Dimensions	124*66*33mm
Charging Method	Solar + USB
Waterproof Rating	IP56
Effective Range	200-300m²
Detection Range	360°
Rated Frequency	20-36.5kHz

Product Features

1. Light sensor detects ambient light and automatically activates/deactivates the repellent device.
2. Suitable for diverse usage scenarios.
3. Easy installation and user-friendly operation.
4. Recommended locations: Homes, gardens, courtyards, orchards, parks, lawns, rice fields, farms, and campsites.
5. Effective against: Dogs, wolves, deer, birds, rodents, cockroaches, and ants.

Operating Principle

Indoor Mode: Emits ultrasonic waves at 20kHz-36.5kHz to repel mice, cockroaches, and other pests.

Outdoor Mode: Utilizes ultrasonic waves at 20kHz-36.5kHz combined with LED lights to repel birds, dogs, wolves, deer, mice, and other animals through varying installation heights.

LQ2022

Solar-Powered Ultrasonic Animal Repeller

Product Parameter	
Weight	270g
Color	Green
Material	ABS + PC
Package Dimensions	110*98*95mm
Charging Method	Solar + USB
Waterproof Rating	IP66
Effective Range	3-10m
Detection Range	110°
Rated Frequency	13-60kHz

Product Features

1. Easy to operate and assemble.
2. Large ultrasonic speaker.
3. Made of eco-friendly ABS material, non-toxic and harmless.
4. Suitable for: villas, gardens, courtyards, orchards, parks, lawns, rice fields, farms, and camping.
5. Applicable range: birds, mice, rabbits, cats, dogs, foxes, wolves, deer, wild boars, raccoons, badgers, skunks, bats, minks, snakes, rodents.

Operating Principle

- Mode 1: Ultrasonic frequencies of 20kHz-25kHz-30kHz repel dogs, cats, foxes, deer, and other wildlife.
- Mode 2: Emits ultrasonic waves from 13kHz to 60kHz with LED strobe lights, effectively repelling rodents, dogs, cats, raccoons, badgers, skunks, wild boars, and other wildlife.
- Mode 3: LED strobe + voice alarm repels hunting dogs, birds, wild boars, and other wildlife.
- Mode 4: Cycles between Mode 1 and Mode 3 to repel all wildlife.

Ultrasonic Dog Trainer

- Utilizing ultrasonic waves and strobe light functions, the device stimulates a dog's auditory and nervous systems to induce fear, thereby serving as a warning and training tool.
- The product's laser pointer feature can be used to play with dogs, helping indoor pets increase their exercise levels.

LQ3001

Portable Pet Bark Deterrent

Product Features

Mode 1: Ultrasonic Mode. Press and hold the switch button to emit a 25kHz ultrasonic wave to alert the dog. The sound will continue until the button is released or automatically stops after 8 seconds.

Mode 2: Ultrasonic and Flashing Mode. Press and hold the switch button to activate 25kHz ultrasonic waves and flashing lights to deter dogs. The device will continue until the button is released or automatically stops after 8 seconds.

Mode 3: LED Lighting Mode. Press and hold the switch button to turn on the light. Release the button to turn off the light.

Applicable Pets: Cats, Dogs

Suitable Locations: Home, Outdoors, Travel

Product Parameter	
Weight	95g
Color	Black-Orange Gray-Orange
Package Dimensions	67*32*142mm
Frequency Range	25kHz
Effective Range	5m
Material	ABS
Charging Method	USB

Operating Principle

The human hearing range is 20-20,000 Hz, while dogs can hear frequencies between 15-50,000 Hz. Portable pet bark collars emit ultrasonic waves at 25,000 Hz—a frequency inaudible to humans—producing an instant, intense “explosion” sound that startles dogs and serves as a deterrent.

The 25,000 Hz sound is inaudible to humans, causing no disturbance or irritation. Dogs can hear it and are effectively stimulated by it, yet it poses no harm to them.

LQ3002

Ultrasonic Pet Trainer

Product Parameters

Product Parameter	
Weight	105g
Color	Black-Orange Gray-Orange
Package Dimensions	66*38*146mm
Frequency Range	25-30kHz
Effective Range	8m
Material	ABS
Charging Method	USB

Product Features

Mode 1: Ultrasonic Switch. Press and hold the switch button. The operation indicator will display green, and the device will emit ultrasonic training signals at the frequency corresponding to the selected level until the button is released or the device automatically stops after 10 seconds.

Mode 2: Laser Light Switch. Press and hold the switch button. The device will activate the laser light to engage the dog until the button is released.

Mode 3: LED Light Switch

Lightly press the white light button to make it flash. This can be used with ultrasonic signals to stop barking. Press again to keep the light on. Press a third time to turn the light off.

Long battery life: 5-hour charge, 6-month standby time

Applicable to: Cats, dogs

Suitable for: Home, outdoor, travel

Operating Principle

By adjusting the settings, the dual ultrasonic sensors emit sound waves of varying intensities to train and alert dogs.

Dogs are naturally drawn to laser pointers. This product's laser function can engage your dog, helping indoor pets get more exercise and serving as a great tool for burning off their boundless energy.

LQ3003

Intelligent Ultrasonic Stop Barker

Product Features

Mode 1: Upon detecting sound, the ultrasonic sensor activates and the green LED illuminates. It emits 25kHz ultrasonic waves and automatically shuts off after 0.1 seconds.

Mode 2: Upon detecting a signal, the ultrasonic sensor activates and the green LED illuminates. It emits cross-frequency ultrasonic waves between 10-25kHz and automatically shuts off after 8 seconds.

Mode 3: Upon detecting a signal, the ultrasonic device activates and the green light illuminates. It emits cross-frequency ultrasonic waves between 10-30 kHz and automatically shuts off after 8 seconds.

Voice-activated startup;

Supports operation while charging;

Applicable to: Cats, dogs;

Suitable for: Homes, outdoors, travel.

Product Parameter

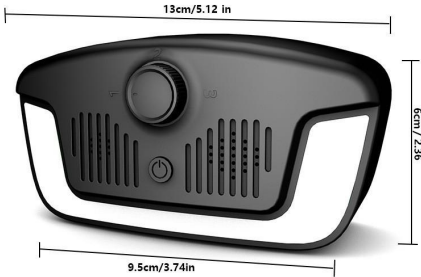

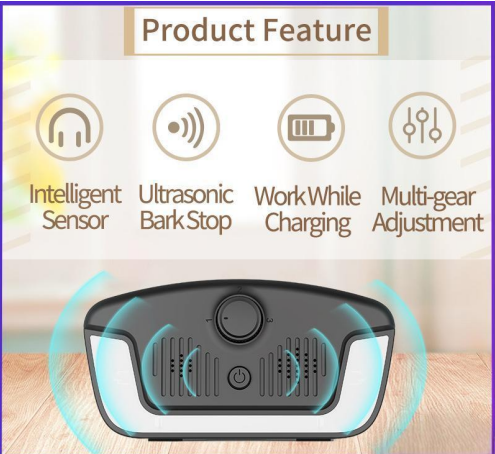

Weight	225g
Color	Black & White Black & Orange
Package Dimensions	125*113*78mm
Frequency Range	10-30kHz
Effective Range	20m ²
Material	ABS
Charging Method	USB

Operating Principle

The device uses a dog's bark to trigger an ultrasonic circuit, which emits a piercing sound (ineffective to humans but effective to dogs). This sound is sufficiently unpleasant to cause the dog discomfort and stop its barking (without causing any harm to the dog). After repeated exposure, the dog learns that this sharp sound is triggered by its own barking and consequently ceases to bark.

LQ3004

Intelligent Ultrasonic Stop Barker

Product Features

Mode 1: When the microphone detects sound, ultrasonic waves activate (green light illuminates), automatically deactivating after 8 seconds. Ultrasonic output frequency: 25kHz.

Mode 2: When the microphone detects sound, ultrasonic waves activate (green light illuminates), automatically deactivating after 8 seconds. Ultrasonic output frequency: 10kHz–25kHz.

Mode 3: When the microphone detects sound, the ultrasonic device activates (green light illuminates) and automatically shuts off after 8 seconds. Ultrasonic output frequency: 10kHz-30kHz;

Voice-activated activation;

Supports operation while charging;

Applicable to: Cats, dogs;

Suitable for: Home, outdoor, travel.

Product Parameter	
Weight	195g
Color	Black & White
Package Dimensions	130*60*74mm
Frequency Range	10-30kHz
Effective Range	20m ²
Material	ABS
Charging Method	USB

Operating Principle

This product activates ultrasonic waves through a dog's bark, emitting an 8-second piercing ultrasonic sound inaudible to humans but detectable by dogs. This sound causes discomfort, prompting the dog to cease barking (without causing any physical harm).

The dog then learns to associate the sound with its own barking, eventually stopping the behavior altogether.

LQ3005

Ultrasonic Pet Trainer (Dual Speaker)

Product Features

- Mode 1: Dual-speaker ultrasonic, output frequency ranges from 24KHZ-26KHZ and 25KHZ-31KHZ, continuously varying;
- Mode 2: Laser light switch—press and hold the switch button to activate the laser light for dog play;
- Mode 3: LED light switch. Lightly press to make the white light flash, which can be used in conjunction with ultrasonic waves to stop dog barking;
- Mode 4: Training voice recording. Eliminates the need for repeated verbal commands to curb unwanted dog behavior;
- COD illumination light provides lighting functionality;
- Equipped with a high-definition LCD display
- Applicable to: Cats, dogs;
- Suitable for: Home, outdoor, travel.

Product Parameter	
Weight	148g
Color	Multiple colors, customizable
Package Dimensions	102*32*146mm
Frequency Range	24-31kHz
Effective Range	18m
Material	ABS
Charging Method	USB

Operating Principle

Dual-Speaker Ultrasonic Pet Trainer Utilizes two variable-frequency ultrasonic speakers, laser pointer, LED light, and voice recording function to train pets. Features a high-definition display and COB lighting for easy operation. Prevents unwanted pet behavior without the need for loud shouting or physical punishment.

LQ3006

Ultrasonic Pet Trainer (Triple Speaker)

Product Features

- Mode 1: Triple ultrasonic horn emitting frequencies between 24kHz and 31kHz with continuous variation;
- Mode 2: Laser light switch—press and hold the button to activate the laser light for dog play;
- Mode 3: LED light switch. Lightly press the white light to make it flash. This can be used in conjunction with ultrasonic sound to stop dog barking;
- Mode 4: Training voice recording. Eliminates the need for repeated verbal commands to curb unwanted dog behavior;
- Equipped with a high-definition LCD display
- Applicable to: Cats, dogs;
- Suitable for: Home, outdoor, travel.

Product Parameter	
Weight	160g
Color	Black, Orange, Green
Package Dimensions	63*53*142mm
Frequency Range	24-31kHz
Effective Range	15m
Material	ABS
Charging Method	USB

Operating Principle

Triple-Speaker Ultrasonic Pet Trainer Utilizes three variable-frequency ultrasonic speakers, a laser pointer, LED lights, and voice recording functionality to train pets. Features a high-definition display for easy operation, preventing unwanted pet behaviors without the need for loud shouting or physical punishment.

Electric Mosquito Killer Lamp

- Flying insects are attracted to light, and UV lamps use ultraviolet light to lure mosquitoes into traps.
- They are then trapped using sticky adhesive boards or eliminated via high-voltage electric grids.

LQ4001

Solar-Powered Mosquito Lamp

Product Features

- 1. IP66 waterproof and dustproof.
- 2. Features RGB ambient lighting, serving both as a mosquito repellent and decorative lamp.
- 3. Suitable for both outdoor and indoor use.
- 4. Recommended locations: Bedrooms, living rooms, kitchens, courtyards, gardens, dining tables, camping.
- 5. Effective against: Mosquitoes, flies, moths, spiders, ants.

Operating Principle

Mode 1: Press and hold the switch for 3 seconds to turn on the mosquito lamp. The device emits 365-nanometer UV light to attract mosquitoes. When mosquitoes approach the high-voltage grid, they are electrocuted and killed, effectively eliminating them.

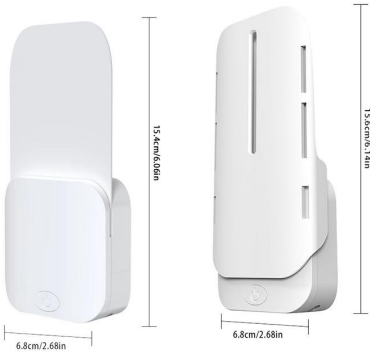

Mode 2: Press and hold the switch for 3 seconds to turn off the mosquito lamp.

Mode 3: Press and hold the light button for 3 seconds to activate the tent light. The default mode is high brightness. Pressing the light button cycles through modes: high brightness, standard brightness, low brightness, SOS fast flash, and SOS slow flash.

Product Parameter	
Weight	540g
Power	4W
Material	ABS
Light Tube Type	UV Light Tube
Color	Black
Package Dimensions	124*124*230mm
Effective Range	15-20 m²
Charging Method	Solar + USB

LQ4002

Sticky Mosquito Trap

Product Features

- 1. Highly effective mosquito elimination, energy-efficient and eco-friendly.
- 2. Safe for children and pets.
- 3. Completely silent operation with no odor emission.
- 4. Features a built-in night light illumination function.
- 5. Suitable for: Kitchens, bathrooms, bedrooms, balconies.
- 6. Effective against: Mosquitoes, fruit flies, houseflies, bed bugs, flying insects, moths.

Product Parameter	
Weight	71g
Power	1W
Operating Voltage	110-240VAC
Light Tube Type	UV Light Tube
Color	White, Black
Package Dimensions	113*68*76mm/2PCS
Charging Method	Plug-in
Product Specifications	US、UK、EU

Operating Principle

Flying insects are attracted to light. When the device is in operation, it emits an attractive UV light to lure them in. A powerful adhesive board is positioned above the UV lamp tube. When the insects come into contact with the adhesive board, they become stuck, preventing the flying insects drawn by the UV light from escaping.

LQ4003

Sticky Mosquito Trap

Product Parameter	
Weight	70g
Power	1W
Material	ABS
Operating Voltage	110-240VAC
Light Tube Type	UV Light Tube
Color	White, Black
Package Dimensions	161*92*76mm/2PCS
Charging Method	Plug-in
Product Specifications	US、UK、 EU

Product Features

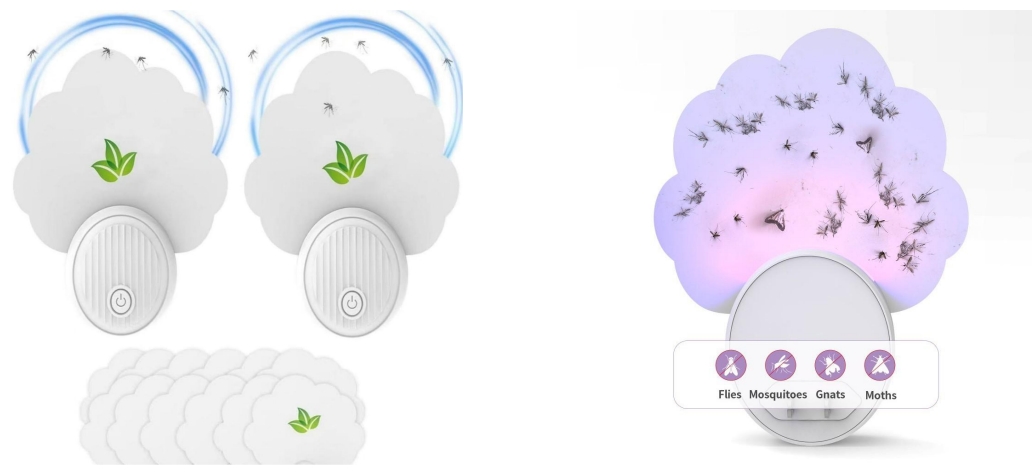

- 1. Highly effective mosquito elimination, energy-efficient and eco-friendly.
- 2. Safe for children and pets.
- 3. Completely silent operation with no odor emission.
- 4. Features a built-in night light illumination function.
- 5. Suitable for: Kitchens, bathrooms, bedrooms, balconies.
- 6. Effective against: Mosquitoes, fruit flies, houseflies, bed bugs, flying insects, moths.

Operating Principle

Flying insects are attracted to light. When the device is in operation, it emits an attractive UV light to lure them in. A powerful adhesive board is positioned above the UV lamp tube. When the insects come into contact with the adhesive board, they become stuck, preventing the flying insects drawn by the UV light from escaping.

LQ4004

Sticky Mosquito Trap

Product Features

1. Easy to replace, no cleaning required—simply swap out periodically.
2. Safe for mothers and infants, smoke-free and odorless.
3. Low-decibel operation with minimal light, won't disturb sleep.
4. High-adhesive cardboard for powerful sticky capture.
5. Suitable for: Kitchens, dining rooms, living rooms, bathrooms, bedrooms, balconies.
6. Applicable insects: Mosquitoes, fruit flies, houseflies, bed bugs, flying insects, moths.
7. Shapes: Square sticky traps, cloud-shaped sticky traps, peach-shaped sticky traps.

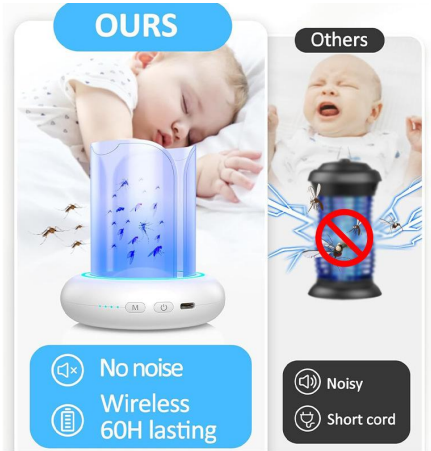

Product Parameter	
Weight	63g
Power	1W
Material	ABS
Operating Voltage	110-240VAC
Light Tube Type	UV Light Tube
Color	White, Black
Package Dimensions	112*102*63mm/2PCS
Charging Method	Plug-in
Product Specifications	US、UK、EU

Operating Principle

During operation, the device emits ultraviolet light tailored to mosquito wavelength ranges, effectively drawing mosquitoes toward the sticky trap board to enhance capture rates. It attracts only mosquitoes without disturbing humans. Emitting no smoke or odors, it is safe for pregnant women and infants—it does not irritate babies' delicate respiratory systems, and expectant mothers need not worry about inhaling substances that could affect fetal development.

LQ4005

Sticky Mosquito Trap

Product Features

- 1. 360-degree coverage for comprehensive insect capture.
- 2. Low noise and low light operation, won't disturb sleep.
- 3. Fully charged, lasts up to 60 hours.
- 4. Chemical-free, ideal for households with children and pets.
- 5. Suitable locations: Kitchens, dining rooms, living rooms, bathrooms, bedrooms, balconies, gardens, camping.
- 6. Effective against: Mosquitoes, fruit flies, houseflies, bed bugs, flying insects, moths.

Product Parameter	
Weight	170g
Power	2.5W
Material	ABS
Light Tube Type	UV Light Tube
Color	White, Black, Green, Orange, Yellow
Package Dimensions	111*92*36mm
Product Specifications	USB

Operating Principle

When the device is in operation, it emits ultraviolet light that attracts mosquitoes. Adhesive mosquito traps are arranged in a 360-degree pattern above the UV lamp tubes, capturing insects from all directions once they are drawn in, leaving them nowhere to escape. Equipped with RGB ambient lighting, it effectively eliminates mosquitoes while also serving as a decorative light.

LQ4006

Solar-Powered Mosquito Lamp

Product Features

- 1. IP66 waterproof rating, suitable for harsh outdoor weather conditions.
- 2. Easy to clean, can be directly rinsed with water.
- 3. 360-degree high-voltage grid mosquito elimination.
- 4. Four-in-one multifunctional mosquito control with emergency light, illumination, UV light, and red light functions.
- 5. Suitable for: Kitchens, dining rooms, living rooms, bathrooms, bedrooms, balconies, courtyards, and camping.
- 6. Effective against: Mosquitoes, Aedes mosquitoes, fruit flies, houseflies, bed bugs, flying insects, moths, and wasps.

Product Parameter	
Weight	679g
Power	4W
Material	ABS
Light Tube Type	UV Light Tube
Color	Black
Package Dimensions	140*140*228mm
Effective Range	15-20 m²
Charging Method	Solar + USB

Operating Principle

Powered by solar energy and USB charging, it automatically shuts down during daylight hours and activates at night. Utilizing UV and RGB lights to attract mosquitoes, it employs a 4200-volt high-voltage mosquito elimination system to keep you free from mosquitoes and insects.

LQ4007

Solar-Powered Photocell Mosquito Killer

Product Features

- 1. PIR motion sensor.
- 2. Solar-powered, safe and eco-friendly.
- 3. Suitable locations: Warehouses, courtyards, villages, balconies.
- 4. Target pests: Mosquitoes.

Product Parameter	
Weight	310g
Power	4W
Material	ABS
Light Tube Type	UV Light Tube
Color	Black
Package Dimensions	142*67*123mm
Effective Range	15-20 m²
Charging Method	Solar

Operating Principle

The device operates by converting solar energy into electricity. It ceases operation during daylight hours to charge, then automatically activates at night for efficient mosquito elimination. When the PIR sensor detects insect movement, the UV lamp illuminates for 20 seconds to attract mosquitoes, which are then repelled by the high-voltage grid. The device automatically shuts off when no insects are present.

LQ4008

UV-Trap Mosquito Killer

Product Features

- 1. Fully charged battery provides 18 hours of use.
- 2. Automatic sensing function detects day and night cycles.
- 3. Suitable for: Indoor, outdoor, hiking, camping.
- 4. Effective against: Mosquitoes, small flying insects, Aedes mosquitoes, flies, moths, wasps.

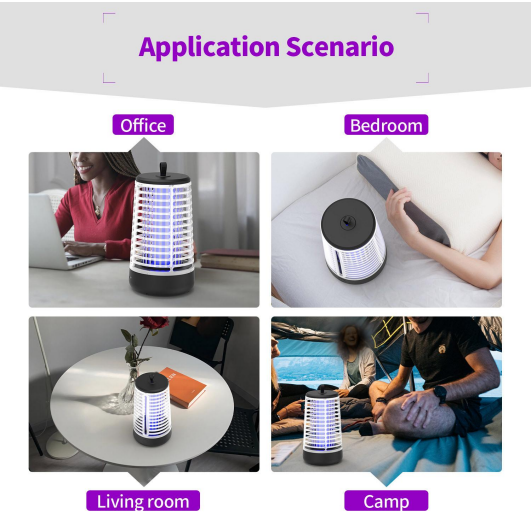

Operating Principle

Charge via USB for portable use. Automatically turns off during the day and on at night, using UV light to attract mosquitoes and other flying insects. Combined with a 2500-volt high-voltage grid for mosquito elimination, it keeps you free from mosquitoes and other flying insects.

Product Parameter	
Weight	347g
Power	2.5W
Material	ABS
Light Tube Type	UV Light Tube
Color	White
Package Dimensions	222*95*95mm
Effective Range	15-20 m²
Charging Method	USB

LQ4009

UV-Trap Mosquito Killer

Product Features

- 1. Convenient Design: Ergonomic hook ring for easy carrying and hanging.
- 2. High Light Transmission: Transparent mesh cover significantly boosts light penetration for all-around mosquito repellency.
- 3. Easy Cleaning: Removable mosquito collection box simplifies cleanup of insect debris.
- 4. Quiet Operation: Virtually silent during use, ensuring peaceful sleep all night.
- 5. Ideal for: Offices, bedrooms, living rooms, camping.
- 6. Effective against: Mosquitoes, small flying insects, Aedes mosquitoes, flies, moths, wasps.

Product Parameter	
Weight	179.5g
Power	2.5W
Material	ABS
Light Tube Type	UV Light Tube
Color	Black
Package Dimensions	95*95*171mm
Effective Range	15-20 m²
Charging Method	USB

Operating Principle

Utilizing a 395nm frequency-modulated light wave—a wavelength that corresponds to the habits of pests like mosquitoes, flies, and moths—it rapidly attracts mosquitoes to approach. Featuring a vertical high-voltage grid, it eliminates mosquitoes with 360° coverage. When mosquitoes come near, it instantly releases a 2000-volt charge, killing them in just 0.05 seconds.

LQ4010

Sticky-trap mosquito lamp

Applicable scenarios

Product Features

- 1. Highly effective mosquito elimination, energy-efficient and eco-friendly.
- 2. Safe for pregnant women, children, and pets.
- 3. Quiet operation with minimal noise and no odor emission.
- 5. Suitable for: Kitchens, living rooms, bedrooms, balconies.
- 6. Effective against: Mosquitoes, fruit flies, houseflies, bed bugs, flying insects, moths.

Product Parameter	
Weight	100g
Power	2.5W
Material	ABS
Light Tube Type	UV Light Tube
Color	White, Black, Green
Package Dimensions	104*104*150mm
Charging Method	USB

Operating Principle

Flying insects are attracted to light. When the device is in operation, it emits an attractive UV light to lure them in. A powerful adhesive board is positioned beneath the UV lamp tube. Once the insects come into contact with the sticky board, they become trapped and unable to escape.

LQ4011

Multi-Function Outdoor Mosquito Killer

Product Features

- 1. Convenient Design: User-friendly hook design for easy carrying and hanging.
- 2. Quiet Operation: Runs silently at 15 decibels.
- 3. Easy Cleaning: Removable insect storage box allows effortless removal for cleaning.
- 4. Suitable Locations: Bedrooms, living rooms, kitchens, offices, warehouses, camping.
- 5. Target Pests: Mosquitoes, flies, moths, spiders, ants, and other insects.

Product Parameter	
Weight	509g
Power	1W
Material	ABS
Operating Voltage	110-240VAC
Light Tube Type	UV Light Tube
Color	Black
Package Dimensions	120*120*247mm
Effective Coverage	25m²
Charging Method	Plug-in
Product Specifications	US、 EU

Operating Principle

The device emits blue-violet light waves to attract mosquitoes. When mosquitoes approach, it instantly kills them with a 2500V high-voltage surge. The UV lamp tube features a new coating design for extended service life.

LQ4012

Multi-Function Outdoor Mosquito Killer

Product Features

- 1. Convenient Design: User-friendly hook design for easy carrying and hanging.
- 2. Quiet Operation: Runs silently at 15 decibels.
- 3. Easy Cleaning: Removable insect collection box for effortless cleaning.
- 4. Suitable Locations: Indoors, outdoors, greenhouses, balconies.
- 5. Target Pests: Mosquitoes, small flying insects, Aedes mosquitoes, flies, moths, wasps.

Product Parameter	
Weight	590g
Power	1W
Material	ABS
Operating Voltage	110-240VAC
Light Tube Type	UV Light Tube
Color	Black
Package Dimensions	135*135*273mm
Effective Coverage	25m²
Charging Method	Plug-in
Product Specifications	US、UK、 EU

Operating Principle

The device operates using 12 RGB neon lights and LED lights to attract mosquitoes. When mosquitoes approach, it employs a 4500V instantaneous high voltage to quickly eliminate them. Designed with RGB neon lights and LED lights, it effectively exterminates mosquitoes while also serving as decorative lighting.

LQ4013

Sticky Mosquito Trap

Product Features

- 1. Highly effective mosquito elimination, energy-efficient and eco-friendly.
- 2. Specially designed mesh prevents children from touching.
- 3. Completely silent operation with no odor emission.
- 4. Suitable locations: Kitchens, bathrooms, bedrooms, balconies.
- 5. Effective against: Mosquitoes, fruit flies, houseflies, bed bugs, flying insects, moths.

Product Parameter	
Weight	170g
Power	1W
Material	ABS
Operating Voltage	110-240VAC
Light Tube Type	UV Light Tube
Color	White
Package Dimensions	80*68*124mm
Effective Coverage	25m²
Charging Method	Plug-in
Product Specifications	US

Operating Principle

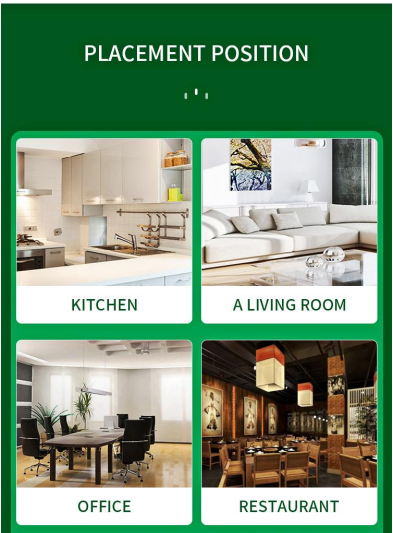

Flying insects are attracted to light. When the device is in operation, it emits an attractive UV light to lure them in. A powerful adhesive board is positioned above the UV lamp tube. When the insects come into contact with the adhesive board, they become stuck, preventing the flying insects drawn by the UV light from escaping.

Pest Trap

- Use food baits to trap mosquitoes, cockroaches, and rats.
- Install sticky glue boards at the trap sites, or set up one-way doors that allow entry but no escape, leaving pests with no way out.

LQ5001

Super Strong Mouse Trap

Product Parameter	
Weight	90g
Color	Green
Folded Dimensions	80*68*124mm
Unfolded Dimensions	25m²
Product Materials	Cardboard, Adhesive, and Peanut Bait

Product Features

1. Uses peanuts, a favorite bait for mice;
2. Designed with strong adhesive glue and extra-thick cardboard to trap mice once they step on it;
3. Oversized, reinforced construction with a sturdy base plate resists dragging and escape attempts;
4. Eliminates rodents through physical trapping—no pesticides or insecticides used;
5. Suitable for indoor locations including kitchens, living rooms, offices, restaurants, hospitals, warehouses, and more.

Operating Principle

Using peanuts favored by mice as bait, the glue trap features a design with strong adhesive and thickened cardboard. Once a mouse steps on it, it becomes firmly stuck and cannot escape.

LQ5002

Cockroach House

Product Parameter	
Weight	25g
Color	Red
Dimensions	190*90mm
Packaging	10 pieces per box
Product Materials	Cardboard, Glue, Brown Sugar Bait

Product Features

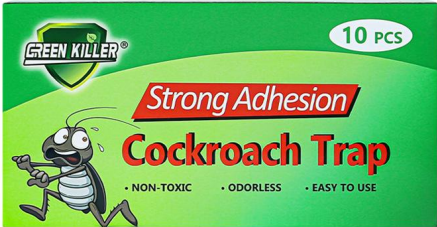

1. Uses brown sugar, a favorite of cockroaches, as bait;
2. Features a design with strong adhesive and textured sticky surface, preventing escape;
3. 360° all-around attraction facilitates feeding and delivers rapid results;
4. Eliminates cockroaches through physical trapping without pesticides;
5. Suitable for indoor locations including kitchens, living rooms, offices, restaurants, hospitals, and warehouses.

Operating Principle

Using brown sugar—a favorite of cockroaches—as bait, the cockroach trap features a powerful adhesive and a textured sticky board design. Once cockroaches enter the trap, they cannot escape.

LQ5003

Cockroach House

Product Features

- 1. Uses brown sugar, a favorite of cockroaches, as bait;
- 2. Features a design with strong adhesive and textured sticky surface, preventing escape;
- 3. 360° all-around attraction facilitates feeding and delivers rapid results;
- 4. Eliminates cockroaches through physical trapping—no pesticides or insecticides;
- 5. Suitable for indoor locations including kitchens, living rooms, offices, restaurants, hospitals, and warehouses.

Product Parameter	
Weight	25g
Color	Green
Dimensions	190*90mm
Packaging	10 pieces per box
Product Materials	Cardboard, Glue, Brown Sugar Bait

Operating Principle

Using brown sugar—a favorite of cockroaches—as bait, the cockroach trap features a powerful adhesive and a textured sticky board design. Once cockroaches enter the trap, they cannot escape.

LQ5004

Mouse trap

Product packing list

Product Features

- 1. Wide entrance design: The mouse trap features a large opening to easily lure mice inside.
- 2. One-way bait system: The bait emits scent only toward the entrance, directing mice toward the hole for enhanced trapping efficiency.
- 3. High-Sensitivity Trigger: The highly sensitive footplate activates with just 5g of pressure, triggering instantly for both small and large rodents.
- 4. Reinforced Material Construction: The entire trap is made of high-strength, thickened ABS material, ensuring rodents enter but never escape.

Product Parameter	
Weight	240g
Color	Black
Material	ABS
Packaging	One per box
Package Dimensions	265*70*92mm
Product Components	Scented bait box, high-sensitivity pedal, quick-release door mechanism

Operating Principle

Place bait that mice love (such as peanut butter, cookies, nuts, or sausage) inside the mouse trap. Lured by the delicious food, the mouse will enter the cage. Once inside, the trap door will automatically close, leaving the mouse with no escape.

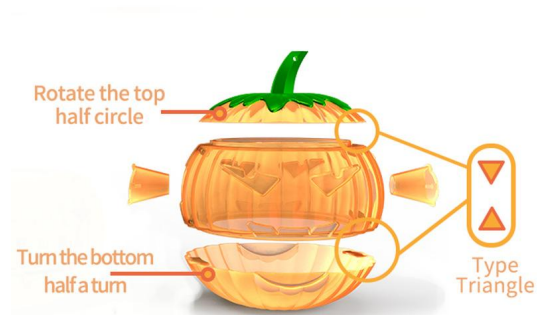

LQ5005

Fruit Fly Trap

Orange

Product details

Product Features

- 1. Easy to use: Can be placed indoors or hung outdoors for use.
- 2. Easy to clean: Three-part detachable design allows for convenient cleaning of the interior.
- 3. Suitable locations: Restaurants, living rooms, kitchens, picnics, fruit shops, orchards, and similar settings.
- 4. Applicable pests: Fruit flies, houseflies, and honeybees.

Product Parameter	
Weight	95g
Color	Yellow, Orange
Material	ABS
Packaging	One per box, two per box
Package Dimensions	120*92*122mm
Product Components	Fruit fly trap, hanging cord

Operating Principle

Open the top lid and pour in the attractant (fruit juice, fruit vinegar, soapy water, honey, red wine). Then close the lid and place it indoors, or hang it outdoors on a tree or in an orchard using the attached rope. During use, fruit flies, houseflies, and bees will fly into the two small holes on the sides of the product, become trapped, and ultimately be unable to escape.

Wearable Pest Repeller

- Release scented insect repellent patches or decorative items to create a 360° protective barrier around you.
- Keeping mosquitoes at bay so you can enjoy outdoor activities without being bothered by them.

LQ6001

Plant essential oil mosquito repellent patch

Product Features

- 1. Stickers feature cute cartoon designs;
- 2. Can be applied to clothing, backpacks, desks, beds, and strollers;
- 3. Does not easily peel off and leaves no residue when removed;
- 4. Made with gentle plant-based essential oil extracts and contains no additives;
- 5. Baby-friendly product;
- 6. Each box contains 6 sheets, with 6 stickers per sheet, totaling 36 mosquito repellent stickers.

Product Parameter	
Weight	12g
Color	Multicolored
Package Dimensions	150*89*20mm
Product Components	Stickers and plant essential oils

Operating Principle

Release insect repellent patches with aromatic scents to form a 360° protective barrier around you, keeping mosquitoes away so you can enjoy outdoor activities without being bothered by mosquitoes.
